## Safety Information

**CAUTION:** TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). FOR USER SERVICE, REFER TO THE QUALIFIED SERVICE PERSONNEL.

In adverse weather (storms, lightning) and long inactivity periods (going on holiday), disconnect the TV set from the mains.

The mains plug is used to disconnect TV set from the mains and therefore it must remain readily operable. If the TV set is not disconnected electrically from the mains, the device will still draw power for all situations even if the TV is in standby mode or switched off.

*Note: Follow the on screen instructions for operating the related features.*

**IMPORTANT - Please read these instructions fully before installing or operating**

**WARNING:** This device is intended to be used by persons (including children) who are capable / experienced of operating such a device unsupervised, unless they have been given supervision or instruction concerning the use of the device by a person responsible for their safety.

- Use this TV set at an altitude of less than 2000 meters above the sea level, in dry locations and in regions with moderate or tropical climates.
- The TV set is intended for household and similar general use but may also be used in public places.
- For ventilation purposes, leave at least 5cm of free space around the TV.
- The ventilation should not be impeded by covering or blocking the ventilation openings with items, such as newspapers, table-cloths, curtains, etc.
- The power cord plug should be easily accessible. Do not place the TV, furniture, etc. on the power cord. A cord should not be used to pull the TV or to give you an electric shock. Handle the power cord by the plug, do not unplug the TV by pulling the power cord. Never touch the power cord/plug with wet hands as this could cause a short circuit or electric shock. Never make a knot in the power cord or tie it with other cords. When damaged it must be replaced, this should only be done by qualified personnel.
- Do not expose the TV to dripping or splashing of liquids and do not place objects filled with liquids, such as vases, cups, etc. on or over the TV (e.g., on shelves above the unit).
- Do not expose the TV to direct sunlight or do not place open flames such as lit candles on the top of or near the TV.

- Do not place any heat sources such as electric heaters, radiators, etc. near the TV set.
  - Do not place the TV on the floor and inclined surfaces.
  - To avoid danger of suffocation, keep plastic bags out of the reach of the babies, children and domestic animals.
  - Carefully attach the stand to the TV. If the stand is provided with screws, tighten the screws firmly to prevent the TV from tilting. Do not over-tighten the screws and mount the stand rubbers properly.
  - Do not dispose of the batteries in fire or with hazardous or flammable materials.
- WARNING - Batteries must not be exposed to excessive heat such as sunshine, fire or the like.**
- WARNING - Excessive sound pressure from earphones or headphones can cause hearing loss.**
- ABOVE ALL - NEVER let anyone, especially children, push or hit the screen, push anything into holes, slots or any other openings in the case.**

**Markings on the Product**

The following symbols are used on the product as a marker for restrictions and precautions and safety instructions. Each explanation shall be considered where the product bears related marking only. Note such information for security reasons.

**Class II Equipment:** This appliance is designed in such a way that it does not require a safety connection to electrical earth.

**Hazardous Live Terminal:** The marked terminal(s) isolate hazardous live under normal operating conditions.

**Class 1 Laser Product:** This product contains Class 1 laser source that is safe under reasonably foreseeable conditions of operation.

**CLASS 1 LASER PRODUCT**

## WARNING

Do not ingest the battery. Chemical Burn Hazard  
This product or the accessories supplied with the product may contain lithium ion batteries. If any of the components will battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death.

Keep new and used batteries away from children. If the battery compartment does not close securely, stop using the product and keep it away from children.  
If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

-----  
A television may fall, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- ALWAYS use cabinets or stands or mounting methods recommended by the manufacturer of the television set.
- ALWAYS use furniture that can safely support the television set.
- ALWAYS ensure the television set is not overhanging the edge of the supporting furniture.
- ALWAYS educate children about the dangers of climbing on furniture to reach the television set or its controls.

- ALWAYS route cords and cables connected to your television so they cannot be tripped over, pulled or grabbed.
- NEVER place a television set in an unstable location.
- NEVER place the television set on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television set to a suitable support.

- NEVER place the television set on cloth or other materials that may be located between the television set and supporting furniture.
- NEVER place items that might tempt children to climb, such as toys and remote controls, on the top of the television or furniture on which the television is placed. If the existing television set is going to be retained and relocated, the same considerations as above should be applied.

-----  
Apparatus connected to the protective earthing of the building installation through the MAINS connection or through other apparatus with a connection to protective earthing – and to a television distribution system using coaxial cable, may in some circumstances create a fire hazard. Connection to a television distribution system has therefore to be provided through a device providing electrical isolation below a certain frequency range (galvanic isolator).

## WALL MOUNTING WARNINGS

- Read the instructions before mounting your TV on the wall.
- The wall mount kit is optional. You can obtain from your local dealer, if not supplied with your TV.
- Do not install the TV on a ceiling or on an inclined wall.
- Use the specified wall mounting screws and other accessories.
- Tighten the wall mounting screws firmly to prevent the TV from falling. Do not over-tighten the screws.

Figures and illustrations in this user manual are provided for reference only and may differ from the actual product appearance. Product design and specifications may be changed without notice.

## Environmental Information

This television is designed to be environment friendly. To reduce energy consumption, you can follow these steps:

- When you set the **Energy Saving** to **Minimum**, **Medium**, **Maximum** or **Auto** the TV will reduce the energy consumption accordingly. Set as **Off** to turn this setting off. If you like to set the **Backlight** (will be located under the **Energy Saving** setting) manually using Left or Right buttons on the remote.

**Note:** Available **Energy Saving** options may differ depending on the selected **Mode** in the **Settings/Picture** menu.

The **Energy Saving** settings can be found in the **Settings/Picture** menu. Note that some picture settings will be unavailable to be changed.

You can also turn the screen off using the **Screen Off** option. If you want to hear the sound only and don't need to watch, if you pressed Right button or Left button, **Screen will be off in 15 seconds**, message will be displayed on the screen. Select **Proceed** and press **OK** to turn the screen off immediately. If you don't press any button, the screen will be off in 15 seconds. Press any button on the remote or on the TV to turn the screen on again.

**Note:** **Screen Off** option is not available if the **Mode** is set to **Game**.

When the **TV** is not in use, please switch off or disconnect the TV from the mains plug. This will also reduce or stop the energy consumption.

## Features

- Remote controlled colour TV
- Fully integrated digital terrestrial TV (DVB-T/T2) sockets
- HDMI inputs to connect other devices with HDMI sockets
- USB input
- OSD menu system
- Stereo sound system
- Teletext
- Headphone connection
- Automatic programming system
- Manual Tuning
- Automatic power down after up to eight hours.
- Sleep timer
- Child lock
- Automatic sound mute when no transmission.
- NTSC playback
- AVI (Automatic Volume Limiting)
- PLL (Frequency Search)
- PC input
- Game Mode (Optional)
- Picture off function
- Ethernet (LAN) for internet connectivity and service
- 802.11 ab/g/n built in WLAN Support
- Audio Video Sharing

## Ultra HD (UHD)

TV supports Ultra HD (Ultra High Definition - also known as 4K) which provides resolution of 3840 x 2160 (4K/2K). It equals 4 times the resolution of Full HD TV by doubling the pixel count of the Full HD TV both horizontally and vertically. Ultra HD contents are supported from HDMI, USB inputs and over DVB-T2 and DVB-S2 broadcasts.

## High Dynamic Range (HDR) / Hybrid Log-Gamma (HLG)

Using this feature the TV can reproduce greater dynamic range of luminosity by capturing and then combining several different exposures. HDR/HLG promises better picture quality thanks to brighter, more realistic highlights, more realistic colour and other improvements. It delivers the look that filmmakers intended to achieve, showing the hidden areas of dark shadows and sunlight with full clarity, colour and detail. HDR/HLG contents are supported via native DVB-S2 broadcasts. HDMI, USB inputs and over DVB-T2 broadcasts. Set the related HDMI source input as **Enhanced** from the **Sources** option in the **Settings-System** menu in order to reach HDR/HLG content, if the HDR/HLG content is received through

an HDMI input. The source device should also be at least HDMI 2.0a compatible in this case.

## Dolby Vision

**Dolby Vision** delivers a dramatic, visual experience, astonishing brightness, exceptional contrast, and vivid colour, that brings entertainment to life. It achieves this stunning image quality by combining HDR, and wide colour gamut imaging technologies. By increasing the brightness of the original signal and using a higher dynamic colour and contrast range, Dolby Vision detail that other post-processing technologies in the TV aren't able to produce. Dolby Vision is supported via native and market applications, HDMI and USB inputs. Set the related HDMI source input as **Enhanced** from the **Sources** option in the **Settings-System** menu in order to watch Dolby Vision content. If the Dolby Vision content is received through an HDMI 2.0 port, the source device should be at least HDMI 2.0a compatible in this case. In the **Settings-Picture-Mode** menu two predefined picture modes will be available if Dolby Vision content is detected: **Dolby Vision Bright** and **Dolby Vision Dark**. Both allow the user to experience the content in the way the creator originally intended with different ambient lighting conditions.

## Accessories included

- Remote Control
- Batteries: 2 AAA
- Instruction Book
- Quick Start Guide

## Standby Notifications

If the TV does not receive any input signal (e.g. from an aerial or HDMI source) for 3 minutes, it will go into standby. When you next switch-on, the following message will be displayed: **"TV switched to standby mode automatically because there was no signal for a long time."**

The **Auto Power Down** option in the **Settings-System** menu could have been set to a value between 1 and 8 hours by default. If this setting is not set as **Off** and the TV has been left on, it will switch into standby mode during the set time. It will switch into standby mode after the set time has expired. When you next switch-on the TV, the following message will be displayed: **"TV switched to standby mode automatically because there was no operation was made for a long time."** Before the TV switches into standby mode a dialogue window will be displayed. If you do not press any button the TV will switch into the standby mode after a waiting period of about 5 minutes. You can highlight **Yes** and press **OK** to turn the TV into standby mode immediately. If you highlight **No** and press **OK**, the TV will power on. You can also choose to cancel the **Auto Power Down** option from this dialogue. Highlight **Disable** and press **OK**, the TV will remain on and the function

will be cancelled. You can enable this function again by changing the settings of the **Auto Power Down** option from the **Settings>System>Power** menu.

#### TV Control Button & Operation

**Note:** The position of the control button may differ depending on the model.

Your TV has a single control button. This button allows you to control the Standby-On / Source / Programme and Volume functions of the TV.

#### Operating with the Control Button

- Press the control button to display the function options menu.
- Then press the button consecutively to move the focus to the desired option if needed.
- Press and hold the button for about 2 seconds to activate the selected option. The icon colour of the option changes when activated.
- Press the button once again to use the function or enter the sub menu.
- To select another function option, you will need to deactivate the last activated option first. Press and hold the button to deactivate it. The icon colour of the option changes when deactivated.
- To close the function options menu do not press the button for a period of about 5 seconds. The function options menu will disappear.

**To turn the TV off:** Press the control button to display the function options menu, the focus will be on the **Standby** option. Press and hold the button for about 2 seconds to activate this option. The icon colour of the option changes when activated. Then press the button once again to turn the TV off.

**To turn on the TV:** Press the control button, the TV will turn on.

**To change volume:** Press the control button to display the function options menu and then press the button consecutively to move the focus to **Volume +** or **Volume -** option. Press and hold the button for about 2 seconds to activate the selected option. The icon colour of the option changes when activated. Then press the button to increase or decrease the volume.

**To change channel:** Press the control button to display the function options menu and then press the

button consecutively to move the focus to **Programme +** or **Programme -** option. Press and hold the button for about 2 seconds to activate the selected option. The icon colour of the option changes when activated. Then press the button to switch to the next or previous channel in the channel list.

**To change source:** Press the control button to display the function options menu and then press the button consecutively to move the focus to **Source** option. Press and hold the button for about 2 seconds to activate this option. The icon colour of the option changes when activated. Then press the button once again to display the sources list. Scroll through the available sources by pressing the button. TV will automatically switch to the highlighted source.

**Note:** Main menu OSD cannot be displayed via the control button.

#### Operation with the Remote Control

Press the **Home** button on your remote control to display main menu. Use the directional buttons and **OK** button to navigate and set. Press **Return/Back** or **Home** button to quit a menu screen.

#### Input Selection

Once you have connected external systems to your TV, you can switch to different input sources. Press the **Source** button on your remote control consecutively to select the different sources.

#### Changing Channels and Volume

You can change the channel and adjust the volume by using the **Programme +**, and **Volume +/–** buttons on the remote.

#### Using Main TV Menu

When the **Home** button is pressed, the main TV menu will appear on the screen. You can navigate through the menu items using the directional buttons on the remote. To select an item or set the sub-menu options of the highlighted menu, press **OK** button. When you highlight a menu option some of the sub-menu items of this menu may appear on the upper side of the menu bar for quick access. To use a quick access item highlight it, press **OK** and set as desired using the **Left/Right** directional buttons. When finished press **OK** or **Back/Return** button to exit.

#### 1. Home

When main menu is opened **Home** menu bar will be highlighted. The content of the **Home** menu can be customised by adding options from other menus. Just highlight an option and press the **Down** direction button on the remote. If you see **Add to Home** option you can add it to the **Home** menu. Same way you can delete or change the position of any item in the **Home** menu. Press the **Down** direction button and select **Delete** or **Move** option and press **OK**. In order

to move a menu item use the **Right** and **Left** direction buttons to select the position that you want the item to move to and press **OK**.

#### 2. TV

#### 2.1. Search

You can search for channels, programmes, services or settings using this option. Press **OK** and enter a key word using the virtual keyboard. Then highlight **OK** and press **OK** to start the search. Results will be displayed on the screen. Select the desired result using the directional buttons and press **OK** to open.

#### 2.2. Guide

You can access the electronic programme guide menu using this option. Refer to **Electronic Programme Guide** section for more information.

#### 2.3. Channels

You can access the **Channels** menu using this option. Refer to **Using the Channel List** section for more information.

#### 2.4. Timers

You can set timers for future events using the options of this menu. You can also review the previously created timers under this menu.

To add a new timer select the **Add Timer** tab using the **Left/Right** buttons and press **OK**. Set the sub-menu options as desired and when finished press **OK**. A new timer will be created.

To edit a previously created timer, highlight that timer, select the **Edit Selected Timer** tab and press **OK**. Change the sub-menu options as desired and press **OK** to save your settings.

To cancel an already set timer, highlight that timer, select **Delete Selected Timer** tab and press **OK**. A confirmation message will be displayed. Highlight **Yes** and press **OK** to proceed. The timer will be cancelled.

It is not possible to set timers for two or more events that will be broadcasted in different channels at the same time interval. In this case you will be asked to choose one of these timers and cancel others. Highlight the timer you want to cancel and press **OK**. Options menu will be displayed. Then highlight **Set/Cancel** and press **OK** to cancel that timer. You will have to save changes after that. In order to do that press **OK**, highlight **Save** changes and press **OK** again.

#### 3. Settings

You can manage the settings of your TV using the options of this menu. Refer to **Settings Menu Content** section for more information.

#### 4. Apps

When your TV is connected to the Internet, related contents will also be available, including **Apps** related contents. Using the **Apps** menu you can access and manage your applications. You can add new apps from

the market or delete the existing ones. Refer to **Apps** section for more information.

#### 5. Sources

You can manage your input source references using the options of this menu. To change the current source highlight one of the options and press **OK**.

#### 5.1. Source Settings

Edit the names, enable or disable selected source options. There are also **Regular** and **Enhanced** options available for HDMI sources. **Regular** and **Enhanced** options are affecting the colour settings of the selected HDMI source.

You can reset your customisations on the **Home** and **Apps** menus to defaults using the **Reset Menu** option in the **Settings** menu (availability depends on TV model and its features). Highlight this option and press **OK**. A confirmation message will be displayed. Highlight **Yes** and press **OK** to proceed. Note that you will not be able to perform this operation again within the next 2 minutes.

#### Inserting the Batteries into the Remote

Remove the screw that secure the battery compartment cover on the back side of the remote control first. Insert two size **AAA** batteries. Make sure the (+) and (-) signs match (observe correct polarity). Do not mix old and new batteries. Replace only with same or equivalent type. Place the cover back on. Then screw the cover back on again.

A message will be displayed on the screen when the batteries are low and must be replaced. Note that when the batteries are low, the performance of the remote control may be impaired.

Batteries should not be exposed to excessive heat such as sunshine, fire or the like.

#### Power Connection

**IMPORTANT:** The TV set is designed to operate on a **220-240V AC, 50 Hz** supply. Always allow the TV set to reach the ambient room temperature before you connect the set to the mains. Plug the power cable to the mains socket outlet.

#### Antenna Connection

Connect the aerial TV plug to the **AERIAL INPUT (ANT-TV)** socket located on the rear side of the TV.

#### Rear side of the TV

If you want to connect a device to the TV, make sure that both the TV and the device are turned off. If the device is on, you can turn on the units and use them.

### Disposal Information

#### [European Union]

These symbols indicate that the electrical and electronic equipment and the battery with this symbol should not be disposed of as general household waste at its end-of-life. Instead, the products should be handed over to the applicable collection points for the recycling of electrical and electronic equipment as well as batteries for proper treatment, recovery and recycling in accordance with your national legislation and the Directive 2012/19/EU and 2013/56/EU.

By disposing of these products correctly, you will help to conserve natural resources and will help to prevent potential negative effects on the environment and human health which could otherwise be caused by inappropriate waste handling of these products.

For more information about collection points and recycling of these products, please contact your local municipal office, your retailer or the digital service of the shop where you purchased the product. Penalties may be applicable for incorrect disposal of this waste, in accordance with national legislation.

#### [Business users]

If you wish to dispose of this product, please contact your supplier and check the terms and conditions of the purchase contract.

#### [Other Countries outside the European Union]

These symbols are only valid in the European Union. Contact your local authority to learn about disposal and recycling.

The product and packaging should be taken to your local collection point for recycling.

Some collection points accept products free of charge.

**Note:** The sign  below the symbol for batteries indicates that this battery contains lead.

### Country Restrictions

This device is intended for home and office use in all EU countries (and other countries following the relevant EU directive) without any limitation except for the countries mentioned below.

| Country            | Restriction   |
|--------------------|---|
| Bulgaria           | General authorization required for outdoor use and public service   |
| Italy              | If used outside of own premises, general authorization is required  |
| Greece             | In-door use only for 5470 MHz to 5725 MHz band  |
| Luxembourg         | General authorization required for network and service supply(not for spectrum)                                   |
| Norway             | Radio transmission is prohibited for the geographical area within a radius of 20 km from the centre of Ny-Alesund |
| Russian Federation | In-door use only  |
| Israel             | 5 GHz band only for 5180 MHz-5320 MHz range   |

The requirements for any country may change at any time. It is recommended that user checks with local authorities for the current status of their national regulations for 5 GHz wireless LANs.

1. **Standby:** Switches On / Off the TV
2. **Numeric buttons:** Switches the channel, enters a number or a letter in the text box on the screen.
3. **Language:** Switches among sound modes (analogue TV), displays and changes audiosubtitle language and turns subtitles on or off (digital TV, where available)
4. **Mute:** Completely turns off the volume of the TV
5. **Volume +/-:**
6. **Guide:** Displays the electronic programme guide
7. **Directional buttons:** Helps navigate menus, content etc. and displays the subpages in TXT mode when pressed Right or Left
8. **OK:** Confirms user selections, holds the page (in TXT mode), views **Channels** menu (DTV mode)
9. **Back/Return:** Returns to previous screen, previous menu, opens index page (in TXT mode). Quickly cycles between previous and current channels or sources
10. **Netflix:** Launches the Netflix application
11. **Freeview Play:** Connects to the Freeview Play platform where you can access available catch-up TV services
12. **Coloured Buttons:** Follow the on-screen instructions for coloured button functions
13. **Rewind:** Moves frames backwards in media such as movies
14. No function
15. **Play:** Starts to play selected media
16. **Pause:** Pauses the media being played
17. **Stop:** Stops the media being played
18. **Fast Forward:** Moves frames forward in media such as movies
19. **Prime Video:** Launches the Amazon Prime Video application
20. **YouTube:** Launches the YouTube application
21. **Exit:** Closes and exits from displayed menus or returns to previous screen
22. **Info:** Displays information about on-screen content, shows hidden information (reveal - in TXT mode)
23. **Home:** Displays TV menu
24. **Source:** Shows available broadcast and content sources
25. **Programme +/-:**
26. **Text:** Displays teletext (where available), press again to superimpose the teletext over a normal broadcast picture (mix)

| Connector | Type                                    | Cables | Device |
|-----------|---|--------|--------|
|           | VGA Connection (back)                   |        |        |
|           | PC/YPaPr/Audio Connection (back)        |        |        |
|           | HDMI Connection (side/back)             |        |        |
|           | SPDIF (Optical Out) Connection (back)   |        |        |
|           | Back AV (Audio/Video) Connection (back) |        |        |
|           | Headphone Connection (side)             |        |        |
|           | YPaPr Video Connection (back)           |        |        |
|           | USB Connection (side)                   |        |        |
|           | CI Connection (side)                    |        |        |
|           | Ethernet Connection (back)              |        |        |

See the illustrations on the left side. You can use YPaPr to VGA cable to connect YPaPr signal to VGA and YPaPr at the same time. To enable PC/YPaPr audio, you will need to use the back audio inputs with a YPaPr/PC audio cable for audio connection. When using a third party in the market, if not supplied, we recommend that you plug all your cables into the back of the TV before mounting on the wall. Insert or remove the cables for the TV with the TV SWITCHED OFF. You should refer to the module instruction manual for details of the settings. The/ Each USB input of your TV supports devices up to 500mA. Connecting devices that have current value exceeding 500mA may damage your TV. When connecting equipment using a HDMI cable to your TV, to guarantee sufficient immunity against parasitic frequency radiation and trouble-free transmission of content, you have to use a high speed shielded (high grade) HDMI cable with ferrites.

If you want to connect a device to the TV, make sure that both the TV and the device are turned off before making any connection. After the connection is done, you can turn on the units and use them.

later from the **Settings>System>Privacy Settings** menu. If the **Internet Connection** option is disabled, **Network/Internet Settings** cannot be displayed and not displayed. If you have any questions or complaints or comments regarding this privacy policy or its enforcement, please contact by email at [smartyservice@vossuhub.com](mailto:smartyservice@vossuhub.com).

Highlight **Next** and press **OK** button on the remote control to confirm and the **Network/Internet Settings** menu will be displayed. Please refer to the **Network/Internet Settings** section for details. If you want your TV to consume less power in standby mode, you can disable the **Wake On Power** option by setting it as **Off**. After the settings are completed, highlight **Next** and press **OK** button to continue.

On the next screen you need to agree to the terms and conditions. Press **Freeview Play** to make use of the related services. Scroll the page to read the entire text and press **Next** to continue. Press **Programme** and **Next** buttons. Highlight **Yes** and press **OK** and press **Next** to confirm and proceed. Highlight **No** and press **OK** to proceed without confirmation. For further requirements for Freeview Play services refer to the **Freeview Play Platform** section.

On next screen you can set broadcast types to be searched, set your encrypted channel searching preferences. Additionally you can set country broadcast type as your favourite one. Priority will be given to the selected broadcast type during the search process and the channels of it will be listed on the top of the channel list. When finished, highlight **Next** and press **OK** to continue.

**About Selecting Broadcast Type**  
To turn a search option for a broadcast type highlight it and press **OK**. The checkbox next to the selected option will be checked. To turn the search option off clear the checkbox by pressing **OK** after moving the focus on the desired broadcast type option.

**Digital Aerial:** If **D. Aerial** broadcast search option is turned on, the TV will search for digital terrestrial broadcasts after other initial settings are completed. Media Playback via USB Input

You can connect 2.5" and 3.5" inch HDD with external power supply external hard disk drives or USB memory stick to your TV by using the USB inputs of the TV.

**IMPORTANT!** Back up the files on your storage devices before connecting them to the TV. Manufacturer will not be responsible for any file damage or data loss. Certain types of USB devices (e.g. MP3 Players) or USB hard disk drives/memory sticks may not be compatible with this TV. The TV supports FAT32 and NTFS disk formatting.

Wait a little while before each plugging and unplugging as the player may still be reading the data. Failure to do so may cause a signal damage to the USB player and the USB device itself. Do not pull out your drive while playing a file.

You can use USB hubs with your TV's USB inputs. External power supplied USB hubs are recommended in such a case.

It is recommended to use the TV's USB input(s) directly, if you are going to connect a USB hard disk. **Note:** When viewing media files the **Media Browser** menu can only display a maximum of 1000 media files per folder.

**Media Browser**  
You can play back music and movie files and display photo files stored on a USB storage device by connecting it to your TV. Connect a USB storage device to one of the USB inputs located on the side of the TV. After connecting a USB storage device to your TV, **Media Browser** menu will be opened on the next screen. You can select the option of the media content USB device any time later from the **Sources** menu. Select the related USB input option from this menu and press **OK**. You can also press the **Source** button on the remote and then select your USB storage device from the list of sources. Then select the file of your choice and press **OK** to display or play it back.

You can set your **Media Browser** preferences by using the **Settings** menu. **Settings** menu can be accessed via the information bar which is displayed on the bottom of the screen while playing back a video or an audio file or displaying a picture file. Press the right side of the information bar and press **OK**. **Picture**

highlight the gear wheel symbol positioned on the **Settings**, **Sound Settings**, **Media Browser Settings** and **Options** menus will be available. The contents of these menus may change according to the type of the currently open media file. Only **Sound Settings** menu will be available while playing back audio files.

| Loop/ Shuffle Mode Operation |   |
|------------------------------|---|
| Start playback and activate  | All files in the list will be continuously played in original order.        |
| Start playback and activate  | The same file will be played continuously (repeat).                         |
| Start playback and activate  | All files in the list will be played once in random order.                  |
| Start playback and activate  | All files in the list will be continuously played in the same random order. |

To use the functions on the information bar highlight the symbol of the function and press **OK**. To change the status of a function highlight the symbol of the function and press **OK** as much as needed. If the symbol is marked with a red cross, that means it is deactivated.

**FollowMe TV**  
With your mobile device you can stream the current broadcast from your smart TV using the **FollowMe TV** feature. Install the appropriate Smart Center application to your mobile device. Start the application. For further information on using this feature refer to the instructions of the application you use.

**Note:** Depending on model, your TV may not support this function. The application may not be compatible with all mobile devices. Both of the devices must be connected to the same network.

**CEC**  
This function allows to control the CEC-enabled devices, that are connected through HDMI ports by using the remote control of the TV.

The **CEC** option in the **Settings>System>Device Settings** menu should be set as **Enabled** at first. Press the **Source** button and select the HDMI input of the connected CEC device from the **Sources** list menu. When new CEC source device is connected it will be listed in source menu with its own name instead of the connected HDMI ports name (such as DVD Player, Recorder 1 etc.).

The TV remote is automatically able to perform the functions which are supported by HDMI. It has been selected. To terminate the operation and control the TV via the remote again, press and hold the "0-Zero" button on the remote control for 3 seconds.

You can disable the CEC functionality by setting the related option under the **Settings>System>Device Settings** menu accordingly.

The TV supports ARC (Audio Return Channel). This feature is an audio link meant to replace other cables between the TV and an audio system (AV receiver or speaker system).

When ARC is active, the TV will mute its other audio outputs automatically and volume control buttons are directed to connected audio device. To activate ARC set the **Sound Output** option in the **Settings>Sound** menu as **HDMI ARC**.

**Note:** ARC is supported only via the HDMI 1 input.

**Switching On/Off**  
To switch the TV on Connect the power cord to a power source such as a wall socket (220-240V/AC, 50 Hz).

To switch on the TV from standby mode either:  
• Press the **On** button, **Programme +/ -** or a numeric button on the remote control.

• Press the **On** button on the TV, the function options menu will be displayed. The focus will be on the **On** option. Press and hold the button for about 2 seconds to activate this. The icon colour of the option will change. Then press the button once again, the TV will switch into standby mode.

**To power down the TV completely, unplugging the power cord from the mains socket.**  
**Note:** When the TV is switched into standby mode, the standby LED can blink to indicate that features such as Standby Search, Timer is active. The LED can also blink when you switch on the TV from standby mode.

**First Time Installation**  
When turned on for the first time, the language selection screen is displayed. Select the desired language and press **OK**. In the following steps of the installation guide, set your preferences using the directional buttons and **OK** button.

On the second screen set your country preference. Depending on the **Country** selection you may be asked to set and confirm a PIN at this point. The selected PIN cannot be 0000. You have to enter it if you are asked to enter a PIN for any menu operation later.

You can activate **Store Mode** option in the next step. This option will configure your TV's settings for the store environment and depending on the TV model being used, the supported features of it may be displayed on the side of the screen as an info banner. This option is intended only for store use. It is recommended to select **Home Mode** for home use. This option will be available in **Settings>System>More** menu and can be turned off on later. Make your selection and press **OK** to continue.

Depending on the model of your TV and the country selection **Privacy Settings** menu may appear at this point. Using this menu you can set your privacy privileges. Highlight a feature and use **Left** and **Right** directional buttons to enable or disable. Read the related explanations displayed on the screen for each highlighted feature before making any changes. You can use **Programme +/ -** buttons to scroll up and down to read the entire text. You will be able to change your preferences at any time.

## System Audio Control

Allows an Audio Amplifier/Receiver to be used with the TV. The volume can be controlled using the remote control of the TV. To activate this feature set the **Sound Output** option in the **Settings>Sound** menu as **HDMI ARC**. When **HDMI ARC** option is selected, **CEC** option will be set as **Enabled** automatically. If it is not already set. The TV speakers will be muted and the sound of the watched source will be provided from the connected sound system.

*Note: The audio device should support System Audio Control feature.*

## E-Manual

You can find instructions for your TV's features in the E-Manual.

To access the E-Manual, enter **Settings** menu, select **Manuals** and press **OK**. For quick access press **Home** button and then **Info** button.

By using the directional buttons select a desired category. Every category includes different topics. Select a topic and press **OK** to read instructions.

To close the E-Manual screen press the **Exit** or **Home** button.

*Note: Depending on model, your TV may not support this function. The contents of the E-Manual may vary according to the model.*

## Settings Menu Content

### Picture Menu Content

|                                  |  |
|----------------------------------|--|
| <b>Mode</b>                      | You can change the picture mode to suit your preference or requirements. Picture mode can be set to one of these options: <b>Cinema</b> , <b>Game</b> (optional), <b>Sports</b> , <b>Dynamic</b> and <b>Natural</b> . <b>Dolby Vision</b> <i>Note: Dolby Vision content is detected. Dolby Vision Dark and Dolby Vision Bright picture mode options will be available instead of Cinema and Natural modes.</i> |
| <b>Contrast</b>                  | Adjusts the light and dark values on the screen.   |
| <b>Brightness</b>                | Adjusts the brightness values on the screen.   |
| <b>Sharpness</b>                 | Sets the sharpness value for the objects displayed on the screen.  |
| <b>Colour</b>                    | Sets the colour value, adjusting the colours.  |
| <b>Energy Saving</b>             | For setting the <b>Energy Saving</b> to <b>Custom</b> , <b>Off</b> , <b>Minimum</b> , <b>Medium</b> , <b>Maximum</b> , <b>Auto</b> , <b>Screen off</b> . <i>Note: Available options may differ depending on the selected Mode.</i>   |
| <b>Backlight</b>                 | This setting controls the backlight level. This option will be available if the <b>Energy Saving</b> is set to <b>Custom</b> . Highlight and use Left/Right directional buttons to set.  |
| <b>Picture Zoom</b>              | Sets the desired image size format.  |
| <b>Picture Shift</b>             | This option may be available depending on the <b>Picture Zoom</b> setting. Highlight and press <b>OK</b> , then use directional buttons to shift the picture upwards or downwards.   |
| <b>Iris HDR</b>                  | Virtual HDR function that manipulates colour, saturation and dynamic contrast. Basically colour and Standard Dynamic Range picture to High Dynamic Range picture. Set as <b>On</b> to enable.  |
| <b>Advanced Settings</b>         |  |
| <b>Dynamic Contrast</b>          | You can change the dynamic contrast ratio to desired value.  |
| <b>Colour Temp</b>               | Sets the desired colour temperature value. <b>Cool</b> , <b>Normal</b> , <b>Warm</b> and <b>Custom</b> options are available.  |
| <b>White Point</b>               | If the <b>Colour Temp</b> option is set as <b>Custom</b> , this setting will be available. Increase the warmth or coolness of the picture by pressing Left or Right buttons.   |
| <b>Iris Blue</b>                 | White colour enhancement function that makes white colour more cooler in order to make more bright picture. Set as <b>On</b> to enable.  |
| <b>Iris Dimming</b>              | <b>Low</b> , <b>Medium</b> , <b>High</b> and <b>Off</b> options are available. While <b>Iris Dimming</b> is active, it will enhance contrast locally for each defined zone.  |
| <b>Noise Reduction</b>           | If the signal is weak and the picture is noisy, use the <b>Noise Reduction</b> setting to reduce the amount of noise.  |
| <b>Iris Contour</b>              | <b>Low</b> , <b>Medium</b> , <b>High</b> and <b>Off</b> options are available. While <b>Iris Contour</b> is active, it will decrease the colour effects in low resolution contents and auto streaming services.  |
| <b>Film Mode</b>                 | Films are recorded at a different number of frames per second to normal television programmes. Turn this feature on when you are watching films to see the fast motion scenes clearly.   |
| <b>Skin Tone</b>                 | Skin tone can be changed between -5 and 5.   |
| <b>Colour Shift</b>              | Adjust the desired colour tone.  |
| <b>Gamut Mapping</b>             | You can use this option to set the range of colours displayed on your TV screen. When set as <b>On</b> , the colour capacity is expanded. When set as <b>Off</b> , the TV's maximum colour capacity is used by default (recommended option).<br><i>Note: This option may not be available depending on the TV model and its features.</i>  |
| <b>Dolby Vision Notification</b> | Sets the notification appearance preference for Dolby Vision contents. When set as <b>On</b> , Dolby Vision logo will be displayed on the lower right side of the screen when Dolby Vision content is detected.  |

|                        |   |
|------------------------|---|
| <b>HDMI Full Range</b> | While watching from a HDMI source, this feature will be visible. You can use this feature to enhance blackness in the picture.  |
| <b>Reset</b>           | Resets the picture settings to factory default settings (except <b>Game mode</b> ).   |
| <b>PC Position</b>     | Appears only when the input source is set to VGAPPC.  |
| <b>Auto-position</b>   | If the image is not centered in VGA mode use this option to automatically adjust the position of the image. Press <b>OK</b> to start the auto adjustment.               |
| <b>H P position</b>    | This item shifts the image horizontally to the right hand side or left hand side of the screen.   |
| <b>V Position</b>      | This item shifts the image vertically towards the top or bottom of the screen.  |
| <b>Dot Clock</b>       | Dot Clock adjustments correct the interference that appear as vertical banding in dot intensive presentations like spreadsheets or paragraphs or text in smaller fonts. |
| <b>Phase</b>           | Depending on the input source(computer etc.) you may see a grey or noisy picture on the screen. You can use phase to get a clearer picture by trial and error.          |
|                        | <i>While in VGA (PC) mode, some items in Picture menu will be unavailable. Instead, VGA mode settings will be added to the Picture menu while in PC mode.</i>           |

|  |  |
|--|--|
| <b>Sound Menu Content</b>              |  |
| <b>Dolby Audio</b>                     | <b>Smart, Movie, Music, News and Off</b> options will be available. Set as <b>Off</b> to disable. <b>Note:</b> Some items in <b>Sound</b> menu will be grayed out and unavailable if set as an option other than <b>Off</b> .  |
| <b>Surround Sound</b>                  | Surround sound mode can be changed as <b>On</b> or <b>Off</b> .  |
| <b>Sound Output</b>                    | Sets the sound output preference. <b>TV, SPDIF</b> and <b>HDMIARC</b> options will be available. There will be no sound output except through the selected option. If <b>HDMI ARC</b> option is selected, <b>CEC</b> feature will be enabled. <b>Note:</b> Depending on the selected option some items in <b>Sound</b> menu will appear as grayed out and will be unavailable.   |
| <b>AVL (Automatic Volume Limiting)</b> | Sets the sound to obtain fixed output level between programmes.<br>If the <b>Dolby Audio</b> menu item is set to an option other than <b>Off</b> the <b>AVL</b> setting options will change. <b>Auto, Night, Normal</b> and <b>Off</b> options will be available. In <b>Auto</b> mode the TV will switch to <b>Normal</b> or <b>Night</b> mode automatically according to the current time information. If no time information is available this option will always function as <b>Normal</b> . When the TV switches to <b>Night</b> mode for the first time after setting this option as <b>Auto</b> , an information bar will pop up on the screen.<br>Please note that compared to <b>Normal</b> mode <b>Night</b> mode provides more aggressive dynamic compression control which is suitable for silent environments. |
| <b>Advanced Settings</b>               |  |
| <b>Equalizer</b>                       | Selects the equalizer mode. Custom settings can be made only when in <b>User</b> mode.   |
| <b>Dynamic Bass</b>                    | Enables or disables the Dynamic Bass.  |
| <b>Sound Mode</b>                      | You can select a sound mode (if the viewed channel supports).  |
| <b>Digital Out</b>                     | Sets digital out audio type. This option will not be available if the <b>Sound Output</b> option is not set as <b>SPDIF</b> .  |
| <b>Headphone/ Lineout</b>              | When you connect an external amplifier to your TV using the headphone jack, you can select this option as <b>Lineout</b> . If you have connected headphones to the TV, set this option as <b>Headphone</b> . Please ensure before using headphones that this menu item is set to <b>Headphone</b> . If it is set to <b>Headphone</b> , the output from the headphone socket will be set to maximum which could damage your hearing.  |
| <b>Headphone</b>                       | Sets headphone volume. This option will not be available if the <b>Headphone/Lineout</b> option is not set as <b>Headphone</b> .<br>Please ensure before using headphones that the headphone volume is set to a low level, to prevent damage to your hearing.  |
| <b>Reset</b>                           | Resets some of the sound settings to factory defaults.   |

|  |   |
|--|---|
| <b>Network Menu Content</b>            |   |
| <b>Network Type</b>                    | Disable the network connection or change the connection type.   |
| <b>Scan Wireless Networks</b>          | Start a search for wireless networks. This option will be available if the <b>Network Type</b> is set as <b>Wireless Device</b> .   |
| <b>Press WPS on your wifi router</b>   | If your modem/router device has <b>WPS</b> , you can directly connect to it using this option. Highlight this option and press <b>OK</b> . Go to your modem/router device and press the <b>WPS</b> button on it to make the connection. This option will be available if the <b>Network Type</b> is set as <b>Wireless Device</b> . |
| <b>Internet Speed Test</b>             | Start a speed test to check your connection bandwidth. The result will be displayed on the screen when finished.  |
| <b>Advanced Settings</b>               | Change the IP and DNS configurations of your TV.  |
| <b>Wake On</b>                         | Enable or disable this feature by setting it as <b>On</b> or <b>Off</b> .<br><b>Note:</b> For detailed information on the options of this menu refer to the <b>Connectivity</b> section.  |
| <b>Installation Menu Content</b>       |   |
| <b>Automatic channel scan (Return)</b> | Displays automatic tuning options. <b>D. Aerial:</b> Searches and stores aerial DVB stations.   |
| <b>Manual channel scan</b>             | This feature can be used for direct broadcast entry.  |
| <b>Network channel scan</b>            | Searches for the linked channels in the broadcast system. <b>D. Aerial:</b> Searches for aerial network channels.   |
| <b>First time installation</b>         | Deletes all stored channels and settings, resets TV to factory settings.  |

|                             |   |
|-----------------------------|---|
| <b>System Menu Content</b>  |   |
| <b>Conditional Access</b>   | Controls conditional access modules when available.   |
| <b>Language</b>             | You may set a different language depending on the broadcaster and the country.  |
| <b>Privacy Settings (*)</b> | Manage your privacy privileges for smart TV related applications. Press <b>OK</b> to enter the menu and set according to your preferences.  |
| <b>Parental</b>             | <p>Enter correct password to change parental settings. You can easily adjust <b>Menu Lock</b>, <b>Maturity Lock</b>, <b>Child Lock</b> or <b>Guidance</b> in this menu. You can also set a new <b>PIN</b> or change the <b>Default CICAM PIN</b> using the related options.</p> <p><i>Note: Some menu options may not be available depending on the country selection in the First Time Installation. Default PIN could have been set to 0000 or 1234. If you have defined the PIN (as requested depending on the country selection) during the First Time Installation use the PIN that you have defined.</i></p>  |
| <b>Date/Time</b>            | Sets date and time.   |
| <b>Sources</b>              | <p>Edit the names, enable or disable selected source options. There are also <b>Regular, Enhanced and Disabled</b> options available for HDMI sources. <b>Regular and Enhanced</b> options are affecting the colour settings of the selected HDMI source. To be able to watch 4K or HDR/HLG images from an HDMI source related source setting should be set as <b>Enhanced</b> if the connected device is compatible with HDMI 2.0 and subsequent versions. Set as <b>Regular</b> if the connected device is HDMI 1.4 compatible. Set accordingly or disable the related HDMI source by setting as <b>Disabled</b>.</p>   |
| <b>Accessibility</b>        | Displays accessibility options of the TV.   |
| <b>Hard of Hearing</b>      | Enables any special feature sent from the broadcaster.  |
| <b>Audio Description</b>    | A narration track will be played for the blind or visually impaired audience. Press <b>OK</b> to see all available <b>Audio Description</b> menu options. This feature is available only if the broadcaster supports it.  |
| <b>Dialogue Enhancement</b> | <p>This feature provides sound postprocessing options for speech-gated dialogue enhancement. <b>Off, Low, Medium and High</b> options will be available. Set according your preference.</p> <p><i>Note: This feature has an effect only if input audio format is AC-4 and this effect only applies to TV loudspeaker output.</i></p>  |
| <b>Netflix</b>              | <p>If this feature is supported by your TV, you can view your ESN(*) number and deactivate Netflix.</p> <p><i>(*) ESN number is a unique ID number for Netflix, created especially to identify your TV.</i></p> <p><i>Note: For 4K video streaming, a minimum 25Mbps internet connection speed is required - For an example please refer to the following conditions: you may need more information on the internet connection requirements for streaming 4K content. When you connect to the internet, the quality of your connection will be analysed and the full HD or 4K quality may take a short time to be realised, or in the event of a slow connection not be possible. You should check your internet capabilities with your internet provider if you are at all unsure.</i></p> |
| <b>Voice Assistant</b>      |   |
| <b>Works With Alexa</b>     | <p>Starts the setup process for this feature manually. If the setup is priority completed <b>Sign Out</b> option will be available. Refer to <b>Alexa Ready</b> section for more information.</p> <p>You can use this option to sign out. If you sign out Works With Alexa feature will be disabled.</p>  |
| <b>Device Settings</b>      |   |
| <b>CEC</b>                  | With this setting you can enable and disable CEC functionality completely. Press <b>Left</b> or <b>Right</b> button to enable or disable the feature.   |
| <b>CEC Auto Power On</b>    | This function allows the connected HDMI-CEC compatible device to turn on the TV and switch to its input source automatically. Press <b>Left</b> or <b>Right</b> button to enable or disable the feature.  |

|                                  |  |
|----------------------------------|--|
| <b>More</b>                      | Displays other setting options of the TV.  |
| <b>Menu Timeout</b>              | Changes timeout duration for menu screens.   |
| <b>Standby LED</b>               | If set as <b>Off</b> the standby LED will not light up when the TV is in standby mode.   |
| <b>Software Upgrade</b>          | Ensures that your TV has the latest firmware. Press <b>OK</b> to see the menu options.   |
| <b>Application Version</b>       | Displays current software version.   |
| <b>Subtitle Mode</b>             | This option is used to select which subtitle mode will be on the screen (DVB subtitle / Teletext subtitle) if both is available. Default value is DVB subtitle. This feature is available only for the country option of Norway.   |
| <b>Auto Power Down</b>           | Sets the desired time for the TV to automatically go into standby mode when not being operated. This option can be set from 1 to 8 hours in steps of 1 hour. You can also disable this option by setting as <b>Off</b> .   |
| <b>Store Mode</b>                | Select this mode to store display purposes. Whilst <b>Store Mode</b> is enabled, some items in the TV menu may not be available.   |
| <b>AVS (Audio Video Sharing)</b> | AVS feature allows you to share files stored on your smartphone or tablet pc. If you have a compatible smartphone or tablet pc and the compatible software is installed, you can shareplay photos on your TV. See instructions of your sharing software for more information.                      |
| <b>Power Up Mode</b>             | This setting configures the power up mode preference. <b>Last State</b> and <b>Standby</b> options are available.  |
| <b>Virtual Remote</b>            | Enable or disable the virtual remote feature.  |
| <b>Show All Cookies (*)</b>      | Displays all saved cookies.  |
| <b>Delete All Cookies (*)</b>    | Deletes all saved cookies.   |
| <b>OS</b>                        | Displays Open Source Software license information.   |
| <b>Do Not Track</b>              | You can set your preference regarding the tracking behaviour for HbbTV services using this option.   |
| <b>Application Priority</b>      | You can set your preferences regarding the priority between the broadcast applications and CICAM App/Mini applications using this option. In case a CICAM is inserted into the TV and a contention occurs between the applications the priority will be given to the selected type of application. |

(\*) These features may not be available depending on the model of your TV and the selected country in the First Time Installation.

*CI This feature may not be available depending on the model of your TV and the select-a-country in the First Time Installation.*

## General TV Operation

### Using the Channel List

The TV sorts all stored stations in the channel list. You can edit this channel list, set favourites or set active stations to be listed by using the **Channels** menu options. Press the **OK** button to open the channel list. You can filter the listed channels or make advanced changes in the current list using the **Filter** and **Edit** tab options. Highlight the tab you want and press **OK** to see available options.

In order to add the channel you are currently watching to the **Home** menu, highlight the **Add to Home** option in the **Edit** tab in the **Channels** menu and press **OK**.

### Managing the Favourite Lists

You can create four different lists of your favourite channels. Enter the **TV-Channels** menu or press the **OK** button in order to open the **Channels** menu. Highlight the **Edit** tab and press **OK** to see the editing options and select the **Tag/UnTag** channel option. Select the desired channel on the list by pressing the **OK** button while the channel is highlighted. You can make multiple choices. You can also use the **Tag/UnTag** all option to select all channels on the list. Then press **Back/Return** button to return to the **Edit** menu options. Select **Add/Remove Favourites** option and press the **OK** button again. Favourite channel list options will be displayed. Set the desired list option to **On**. The selected channels will be added to the list. In order to remove a channel or channels from a favourite list follow the same steps and set the desired list option to **Off**.

You can use the filtering function in the **Channels** menu to filter the channels in the channel list permanently according to your preferences. For instance, using the options of the **Filter** tab, you can set one of your four favourite lists to be displayed every time the channel list is opened.

### Configuring Parental Settings

The **Parental menu** options can be used to prohibit users from viewing of certain programs, channels and using of menus. These settings are located in the **Settings->System->Parental** menu.

To display parental lock menu options, a PIN should be entered. After coding the correct PIN, **Parental** menu will be displayed.

**Menu Lock:** This setting enables or disables access to all menus or installation menus of the TV.

**Guidance:** This setting enables or disables access some of the MHEG applications. Disabled applications can be released by entering the right PIN.

**Internet Lock (I):** If this option is set to **OK**, the internet using applications will be disabled. Set to **OFF** to release these applications again.

### Now/Next Schedule

In this layout option, only the current and next events of the listed channels will be displayed. You can use the directional buttons to scroll through the list of the events.

Press **Back/Return** button to use available tab options. Highlight **Filter** tab and press **OK** to see the filtering options. To change the layout, highlight **Timeline Schedule** and press **OK**.

### Event Options

Use the directional buttons to highlight an event and press **OK** button to display **Options** menu. The following options are available.

**Select Channel:** Using this option, you can switch to the selected channel in order to watch it. The programme guide will be closed.

**More Info:** Display detailed information on the selected event. Use up and down directional buttons to scroll through the text.

**Set Timer on Event / Delete Timer on Event:** Select **Set Timer on Event** option and press **OK**. You can set timers for future events. To cancel an already set timer, highlight that event and press the **OK** button. Then select **Delete Timer on Event** option. The timer will be cancelled.

**Notes:** You cannot switch to any other channel while there is an active timer on the current channel.  
*It is not possible to set timer for two or more individual events at the same time interval.*

### Integrated Catch-Up Services

You can enjoy Freeview Play catch-up TV services that work directly through the electronic programme guide. Whilst you are on a channel use the directional buttons to scroll back in time through the time-line-based guide. You will see contents from last few days.

Available catch-up contents may change according to broadcasters and will be marked with a play icon. Highlight the content you want to play back and press the **OK** button.

Make sure that your TV is connected to your home network in order to use the catch-up services. For further information regarding this matter and other requirements for Freeview Play services refer to the **Connectivity** and **Freeview Play Platform** sections.

### Digital Teletext

Press the **Text** button to view digital teletext information. Operate it with the coloured buttons, cursor buttons and the **OK** button. The operation method may differ depending on the contents of the digital teletext. Follow the instructions displayed on the digital teletext screen. When the **Text** button is pressed again, the TV returns to television broadcast.

### MHEG Teletext

With digital terrestrial broadcasting (DVB-T), in addition to visual and sound, you can also view digital teletext. Digital teletext is sometimes broadcast at the same time with the normal broadcasting.

- Press the **Text** or **Red** button
- Operate it with the coloured buttons, directional buttons and **OK** button

The operation method may differ, depending on the contents of the digital teletext. Follow the instructions displayed on the digital teletext screen. Press the **Text** button to return to television broadcast.

### BBC Red Buttons (RB4)

While watching BBC channels, press the **Red** button or **Text** button to access **Red Button+** services provided by the BBC. On the opening page you can access to BBC's main services such as BBC iPlayer, BBC News, BBC Sport and many others. There are also links to the home pages of the related applications available. Use the navigation buttons on the TV's remote control to move through the application. Press **Exit** button to close and exit.

### Software Upgrade

Your TV is capable of finding and updating the firmware automatically via the broadcast signal or via Internet.

### Software upgrade search via user interface

On the main menu select **Settings->System** and then **More**. Navigate to **Software upgrade** and press the **OK** button. Then select **Scan for upgrade** and press **OK** button to check for a new software upgrade.

If a new upgrade is found, it starts to download the upgrade. After the download is completed, a warning will be displayed, press **OK** button to complete software upgrade and restart TV.

### Troubleshooting & Tips

#### TV will not turn on

Make sure the power cord is plugged in securely to a wall outlet. Press the Power button on the TV.

#### Poor picture

- Check if you have correctly tuned the TV.
- Low signal level can cause picture distortion. Please check antenna connections.
- Check if you have entered the correct channel frequency if you have performed manual tuning.

#### No picture

- TV is not receiving any signal. Make sure the correct source has been selected.
- Is the antenna connected properly?
- Is the antenna cable damaged?
- Are suitable plugs used to connect the antennas?
- If you are in doubt, consult your dealer.

#### No sound

- Check if the TV sound is muted. Press the **Mute** button or increase the volume to check.
- Sound may be coming from only one speaker. Check the balance settings from Sound menu.

#### Remote control - no operation

- The batteries may be exhausted. Replace the batteries.
- The batteries maybe inserted incorrectly. Refer to the section "Inserting the Batteries into the Remote".
- **No signal on an input source**
  - It is possible that no device is connected.
- Check the AV cables and connections from your device.
- Check the device is switched on.

#### The image is not centered in VGA source

To have your TV automatically center the image, enter the **PC Position** menu in **Picture** menu, highlight **Autoposition** and press **OK**. Wait for it to finish. In order to set the position of the image manually you can use **H Position** and **V Position** options. Select the desired option and use Left and Right directional buttons on the remote to set PC Input Typical Display Modes

### PC Input Typical Display Modes

The following table is an illustration of some of the typical video display modes. Your TV may not support all resolutions.

| Index | Resolution | Frequency |
|-------|------------|-----------|
| 1     | 640x350    | 88Hz      |
| 2     | 640x480    | 60Hz      |
| 3     | 640x480    | 72Hz      |
| 4     | 640x480    | 75Hz      |
| 5     | 800x600    | 58Hz      |
| 6     | 800x600    | 60Hz      |
| 7     | 800x600    | 72Hz      |
| 8     | 800x600    | 75Hz      |
| 9     | 1024x768   | 60Hz      |
| 10    | 1024x768   | 70Hz      |
| 11    | 1024x768   | 75Hz      |
| 12    | 1024x768   | 85Hz      |
| 13    | 1152x864   | 75Hz      |
| 14    | 1280x768   | 60Hz      |
| 15    | 1280x768   | 75Hz      |
| 16    | 1280x960   | 60Hz      |
| 17    | 1280x960   | 75Hz      |
| 18    | 1280x1024  | 60Hz      |
| 19    | 1280x1024  | 75Hz      |
| 20    | 1366x768   | 60Hz      |
| 21    | 1366x768   | 60Hz      |
| 22    | 1400x1050  | 58Hz      |
| 23    | 1400x1050  | 60Hz      |
| 24    | 1400x1050  | 75Hz      |
| 25    | 1440x900   | 60Hz      |
| 26    | 1440x900   | 75Hz      |
| 27    | 1600x1200  | 60Hz      |
| 28    | 1600x1050  | 58Hz      |
| 29    | 1600x1050  | 60Hz      |
| 30    | 1920x1080  | 60Hz      |

| AV and HDMI Signal Compatibility |                              | Available |
|----------------------------------|------------------------------|-----------|
| Source                           | Supported Signals            |           |
| Back AV                          | PAL                          | O         |
|                                  | SECAM                        | O         |

| .mp4                    | DVD Subtitle, TEXT           |

### Supported DVI Resolutions

When connecting devices to your TV's connectors by using DVI converter cable(DVI to HDMI cable - not supplied), you can refer to the following resolution information.

|           | 59Hz | 60Hz | 68Hz | 70Hz | 72Hz | 75Hz |
|-----------|------|------|------|------|------|------|
| 640x480   |      | X    | X    |      |      | X    |
| 800x600   | X    |      |      |      |      | X    |
| 1024x768  |      | X    | X    | X    |      | X    |
| 1280x768  |      | X    | X    | X    | X    | X    |
| 1280x960  |      | X    | X    |      |      |      |
| 1360x768  |      | X    | X    |      |      |      |
| 1680x768  |      | X    | X    |      |      |      |
| 1280x1024 |      | X    | X    | X    |      | X    |
| 1400x1050 |      | X    | X    |      |      |      |
| 1600x900  |      | X    | X    |      |      |      |
| 1920x1080 |      | X    | X    |      |      |      |

## Connectivity

### Wired Connectivity

- To connect to a **Wired Network**
- You must have a modem/router connected to an active broadband connection.
  - Connect your TV to your modem/router via an Ethernet cable. There is a LAN port at the rear (back) of your TV.

- Broadband ISP connection
- LAN (Ethernet) cable
- LAN input on the rear side of the TV

### To configure wired settings refer to the Network section in the Settings menu.

- You might be able to connect your TV to your LAN depending on your network's configuration. In such a case, use an Ethernet cable to connect your TV directly to the network wall outlet.

- Network wall socket
- LAN input on the rear side of the TV

### Configuring Wired Device Settings

#### Network Type

- The **Network Type** can be selected as **Wired Device**, **Wireless Device** or **Disabled**, in accordance with the active connection to the TV set. Select this as **Wired Device** if you are connecting via an Ethernet cable.

### Internet Speed Test

Highlight **Internet Speed Test** and press the **OK** button. TV will check the internet connection bandwidth and display the result when complete.

### Advanced Settings

**Highlight: Advanced Settings** and press the **OK** button. On the next screen you can change the IP and DNS settings of the TV. Highlight the desired one and press Left or Right button to change the setting from **Automatic to Manual**. Now you can enter the **Manual IP** and / or **Manual DNS** values. Select the related item in the drop-down menu and enter the new values using the numeric buttons of the remote. Highlight **Save** and press the **OK** button to save settings when complete.

### Wireless Connectivity

#### To Connect to a Wireless Network

The TV cannot connect to the networks with a hidden SSID. To make your modem's SSID visible, you should change your SSID settings via the modem's software.

#### 1. Broadband ISP connection

A Wireless-N router (IEEE 802.11a/b/g/n) with simultaneous 2.4 and 5 GHz bands is designed to increase bandwidth. These are optimized for smoother and faster HD video streaming, file transfers and wireless gaming.

- The frequency and channel differ depending on the area.

- The transmission speed differs depending on the distance and number of obstructions between the transmission products, the configuration of these products, the radio wave conditions, the line traffic and the products that you use. The transmission may also be cut off or may get disconnected depending on the radio wave conditions, DECT phones or any other WLAN 7th appliances. The standard values of the transmission speed are the theoretical maximum values for the wireless standards. They are not the actual speeds of data transmission.

- The location where the transmission is most effective differs depending on the usage environment.

- The Wireless feature of the TV supports 802.11 a,b,g & n type modems. It is highly recommended that you should use the IEEE 802.11n communication protocol in order to avoid any possible problems while watching videos.

- You must change your modem's SSID when there are any other modems around with the same SSID. You can encounter connection problems otherwise. Use a wired connection if you experience problems with a wireless connection.

### Configuring Wireless Device Settings

Open the **Network** menu and select **Network Type** as **Wireless Device** to start connection process.

Highlight **Scan Wireless Networks** option and press **OK** to start a scan for wireless networks. All the networks will be listed. Highlight your desired network from the list and press **OK** to connect.

*Note: If the modem supports N mode, you should set N mode settings.*

If the selected network is password-protected, enter the correct key by using the virtual keyboard. You can use this keyboard via the directional buttons and the **OK** button on the remote control.

Wait until the IP address is shown on the screen.

This means that the connection is now established. To disconnect from a wireless network, highlight **Network Type** and press Left or Right buttons to set as **Disabled**.

If your router has WPS, you can directly connect to the modem/router without entering a password or adding the network first. Highlight **Press WPS** on your **wired router** option and press **OK**. Go to your modem/router device and press the WPS button on it to make the connection. You will see a connection confirmation on your TV once the devices have paired. Select **OK** to proceed. No further configuration is required.

Highlight **Internet Speed Test** and press the **OK** button to check your internet connection speed. Highlight **Advanced Settings** and press the **OK** button to open the advanced setting menu. Use directional and numeric buttons to set. Highlight **Save** and press the **OK** button to save settings when complete.

### Other Information

The status of the connection will be displayed as **Connected** or **Not Connected** and the current IP address, if a connection is established.

### Connecting to your mobile device via WLAN

- If your mobile device has WLAN feature, you can connect it to your TV via a router. In order to access the content in your device. For this, your mobile device must have an appropriate sharing software.

Connect your TV to your router following the steps mentioned in the sections above.

Afterwards, connect your mobile device to the router and then activate the sharing software on your mobile device. Then, select files that you want to share with your TV.

If the connection is established, you will be able to access the shared files installed on your mobile device via the Audio Video Sharing (AVS) feature of your TV.

Highlight the **AVS** option in the **Sources** menu and press **OK**, available media server devices in the network will be displayed. Select your mobile device and press the **OK** button to continue.

- If available, you can download a virtual remote controller application from the server of your mobile device application provider.

*Note: This feature may not be supported on all mobile devices.*

### Wake On

**Wake-on-LAN (WoL)** and **Wake-on-Wireless-LAN (WoWiLAN)** are standards that allow a device to be turned on or woken up by a network message. The message is sent to the device by a program executed on a remote device connected to the same local area network, such as a smartphone.

Your TV is WoL and WoWiLAN-compatible. This feature might be disabled during the First Time Initialization process. To activate this feature, go to the **Wake On** option in the **Network** menu. On this screen, highlight both the device, from which the network message will be sent to the TV, and the TV are connected to the same network. **Wake On** feature is only supported for Android OS devices and can only be used via YouTube and Netflix applications.

In order to use this feature the TV and the remote in use should be plugged at least once while the TV is on. If the TV is switched off, the feature should be re-established, the next time it is switched on. Otherwise this feature will be unavailable. This does not apply, when the TV is switched into the standby mode.

If you want your TV to consume less power in standby mode, you can disable this feature by setting the **Wake On** option as **Off**.

### Wireless Display

**Wireless Display** is a standard for streaming video and sound content. This feature provides the ability to use your TV as wireless display devices.

### Using with mobile devices

There are different standards which enable sharing of screens including graphical, video and audio content between your mobile device and TV.

Then press the **Source** button on the remote and switch to **Wireless Display** source.

A screen appears stating that the TV is ready for connection.

Open the sharing application on your mobile device. These applications are named differently for each brand, refer to the instruction manual of your mobile device for detailed information.

Scan for devices. After you select your TV and connect, the screen of your device will be displayed on your TV.

**Note:** This feature can be used only if the mobile device supports this feature. If you experience problems with the connection check if the operating system version you use supports this feature. There may be incompatibility problems with the operating system versions which are released after the date of the programme. For more details, please refer to the user manual of your device.

### Connectivity Troubleshooting

**Wireless Network Not Available**

- Ensure that all firewalls of your network allow the TV wireless connection.

- Try searching for wireless networks again, using the Network menu screen.

If the wireless network does not function properly, try using the wired network in your home. Refer to the **Wired Connectivity** section for more information on the process.

If the TV does not function using the wired connection, check the modem (router). If the router does not have a problem, check the internet connection of your modem.

### Connection is Slow

See the instruction book of your wireless modem to get information on the internal service area, connection speed, signal quality and other settings. You need to have a high speed connection for your modem.

### Disruption during playback or slow reactions

You could try the following in such a case:

Keep at least three meters distance from microwave oven, mobile telephones, bluetooth devices or any other WLAN compatible devices. Try changing the active channel on the WLAN router.

### Internet Connection Not Available / Audio Video Sharing Not Working

If the MAC address (a unique identifier number) of your PC or modem has been permanently registered, it is possible that your TV might not connect to the internet. In such a case, the MAC address is automatically deleted from the TV. To connect to the internet, this is a precaution against unauthorized access. Since your TV has its own MAC address, your internet service provider has to register the MAC of your TV. For this reason, your TV cannot connect to the internet. Contact your internet service provider and request other devices like computers.

information on how to connect a different device, such as your TV, to the internet.

It is also possible that the connection may not be available due to a firewall problem. If you think this causes your problem, contact your internet service provider. A firewall might be the reason of connectivity and discovery problem, while using the TV in Audio Video Streaming mode or while browsing via Audio Video Sharing feature.

**Invalid Domain**

Ensure that you have already logged on to your PC with an authorized username and password and also ensure that your domain is active, prior to sharing any files in your media server program on your PC. If the domain is invalid, this might cause problems while browsing files in Audio Video Sharing mode.

### Using Audio Video Sharing Network Service

Audio Video Sharing feature uses a standard that makes the viewing process of digital electronics and network.

This standard allows you to view and play photos, music and videos stored in the media server connected to your home network.

#### 1. Server Software Installation

The Audio Video Sharing feature cannot be used if the server programme is not installed onto your PC or if the required media server software is not installed onto the companion device. Prepare your PC with a proper server programme.

#### 2. Connect to a Wired or Wireless Network

See the **Wired/Wireless Connectivity** chapters for detailed configuration information.

#### 3. Enable Audio Video Sharing

Enter the **Settings>More menu** and enable the **Audio Video Sharing** option.

#### 4. Play Shared Files via Media Browser

Highlight the **AVS** option in the **Sources** menu by using the directional buttons and press **OK**. Available media server devices in the network will be listed. Select one item and press **OK** to continue. The media browser will then be displayed.

Refer to the **Media Browser** menu section for further information on file playback.

If a problem occurs with the network, switch your television off at the wall socket and back on again. Trick mode and jump are not supported with the Audio Video Sharing feature.

PC/HDD/Media Player or any other devices that are compatible should be used with a wired connection for higher playback quality.

Use a LAN connection for quicker file sharing between other devices like computers.

**Note:** There may be some PCs which may not be able to utilize the **Audio Video Sharing** feature due to administrator and security settings (such as business PCs).

### Apps

You can access the applications installed on your TV, add or remove them from the **Apps** menu. Highlight an app and press **OK** to launch.

In order to manage the apps installed on your TV, add new apps from the market or to see all available apps in full screen mode highlight the **Add More** option and press **OK**. Using this menu option you can add an installed app to **Home** menu, launch or remove it. Removed apps will no longer be accessible from **Apps** menu. You can also add new apps from the market.

In order to enter the market, highlight the shopping basket logo located on the upper left side of the screen and press **OK**. Available apps in the market will be displayed. Highlight **Add to Apps** and press **OK** again to add the selected app to **Apps** menu.

For quick access to **Add More** menu you can press the **Internet** button on the remote. If this button is available, **Internet** button on the remote, if this button is available.

**Notes:** Possible application dependent problems may be caused by the internet services may change, be discontinued or restricted at any time.

### Freeview Play Platform

Freeview Play platform provides catch-up TV and On Demand services. Simply press the **Freeview Play** button on your remote control to connect to the Freeview Play platform.

The Freeview Play platform can also be accessed from the **Home** and **Apps** menus. Press **Home** button and select **Home** or **Apps**. Then highlight **Freeview Play** and press the **OK** button.

You will have to agree to the terms and conditions for Freeview Play services first if you did not agree to them during **First Time Installation**, highlight **Yes** and press **OK** on the remote to confirm and proceed.

Integrated TV and Player applications will be displayed. Select one and press the **OK** button. Then select a content that you want to play back and press the **OK** button to watch.

Catch-up contents can also be accessed and played back directly from the TV Guide. Refer to the section for more information.

### Requirements

The Freeview Play services may only be used if the following requirements are fulfilled:

- Connecting the TV to the internet. A minimum broadband speed of 2Mbps is required for proper operation or catch up and on demand services.
- Agreeing to the terms and conditions of Freeview Play

**Note:** Freeview Play platform usage will count towards any monthly broadband data allowance. Only selected channels provide 7-day catch up.

### Internet Browser

To use the internet browser, enter the **Apps** menu first. Then launch the internet browser application which has an orange coloured logo with earth symbol on it.

In the initial screen of the browser, the thumbnails of the predefined (if any) links to web sites available will be displayed as **Speed Dial** options along with the **Edit Speed Dial** and **Add to Speed Dial** options.

To navigate the web browser, use the directional buttons on the remote or a connected mouse. To see the browser options bar, move the cursor to the top of the page or press the **Back/Return** button. **History**, **Tags** and **Bookmarks** options and the browser bar which contains previous/next buttons, the refresh button, the address/search bar, the **Speed Dial** and the **Web** buttons are available.

To add a desired website to the **Speed Dial** list for quick access, move the cursor to the top of the page or press the **Back/Return** button. The browser bar will appear. Highlight the **Speed Dial** button and press the **OK** button. Then select **Add to Speed Dial** option and press the **OK** button. Fill in the blanks for **Name** and **Address**, highlight **OK** and press the **OK** button to add. Whilst you are on the site you wish to add to the **Speed Dial** list, highlight the **Web** button and press the **OK** button. Then highlight **Add to Speed Dial** option in the submenu and press the **OK** button again. **Name** and **Address** will be filled automatically according to the site you are visiting. Highlight **OK** and press the **OK** button to add.

You can also use the **Web** menu options to manage the browser. Highlight the **Web** button and press the **OK** button to see available page specific and general options.

There are various ways to search or visit websites using the web browser.

Enter the address of a website(URL) into the search/address bar and highlight the **Submit** button on the virtual keyboard and press the **OK** button to visit the site.

Enter keywords into the search/address bar and highlight the **Submit** button on the virtual keyboard and press the **OK** button to start a search for the related websites.

Highlight a **Speed Dial** thumbnail and press the **OK** button to visit the related website.

Your TV is compatible with USB mice. Plug your mouse or wireless mouse adaptor into the USB input of your TV for easier and quicker navigation.

Some web pages include flash content. These are not supported by the browser.

Your TV does not support any download processes from the internet via the browser.

All sites on the internet might not be supported. According to the site, content problems may occur. In some circumstances video contents might not be able to be played.

#### Smart Centre

Smart Centre is a mobile application running on iOS and Android platforms. With your tablet or phone, you can easily stream your favourite live shows and programmes from your smart TV. Also, you can launch your applications, use your tablet as a remote control for your TV and share media files.

**Note:** Being able to use all functions of this application depends on the features of your TV.

#### Getting Started

To use Smart Centre features, connections have to be done properly. To be able to use internet based features, your modem/router must be connected to the internet.

**IMPORTANT:** Make sure the TV and mobile device are connected to the same network.

For media sharing feature **Audio Video Sharing** option should be enabled (if available). Press the **Home** button on the remote, select **Settings-System-More** menu and press **OK**. Highlight **Audio Video Sharing** and change as **Enabled**. Your TV is ready to connect to your mobile device now.

Install the **Smart Centre** application onto your mobile device.

Start the smart centre application. If all connections are configured properly, you will see your TV's name on your mobile device. If your TV's name doesn't appear on the list, wait a while and tap on the **Refresh** widget. Select your TV from the list.

#### Mobile Device screen

On the main screen you can find tabs to access various features.

The application retrieves actual channel list from TV first when it starts.

**MY CHANNELS:** The programmes of first four channels on the channel list retrieved from the TV are shown on the channel list widget. Press on the channel to expand the list and hold. A list of channels will be displayed and you can choose your desired channel to be replaced.

**TV:** You can watch content through the TV tab. In this mode you can navigate through the channel list retrieved from your TV and click on thumbnails to view the detail pages.

**RECORDINGS:** You can view your active recordings (if available) and reminders through this tab. To delete any item, simply press on the delete icon found on each row.

**EPG** (Electronic programme guide): You can view the EPG content of selected channels through this tab. You can also navigate through channels by pressing on the selected channel on the EPG grid. Please note that updating / refreshing on your network and web service quality.

**Note:** Internet connection is required for WEB based EPG informations.

**SETTINGS:** Configure the application to your liking. You can change.

**Auto-Link (Only in iOS):** The screen of the device automatically turns off after a certain amount of time. Default is off, which means the screen will always stay on.

**Auto-enable FollowMeTV:** FollowMeTV function (if available) will start automatically when this setting is enabled. Default is disabled.

**Auto-connection to TV:** When enabled, your mobile device will automatically connect to last connected TV and skips the TV search screen.

**Change TV (Only in iOS):** Shows the currently connected TV. You can press on this setting to go to the TV search screen and change to a different TV.

**Edit custom channel list:** You can edit your custom channel list using this setting.

**Choose channel list source:** You can choose the channel list source to be used in the application. The options are "TV List" and "Custom List". Additionally you can activate "Remember my choice" option to set the selected channel list source as a constant choice. In this case if the selected source is available it will be used in the application.

**Version No:** Displays the current version of the application.

#### Detail Page

To open detail page, tap on a programme. On the detail page, you can get detailed information of the programmes you select. There are "Details", "Cast&Crew" and "Videos" tabs to find on this page.

**DETAILS:** This tab provides summary and information about the selected programme. Also there are links to facebook and twitter pages of the programme selected.

**CAST&CREW:** Shows all the people contributed to the current programme.

**VIDEOS:** Provides videos on Youtube related to the selected programme.

**Note:** For some functions an internet connection may be required.

#### FollowMe TV Feature (if available)

Tap on the **FOLLOW ME TV** widget located at the bottom left of the screen of your mobile device to change the layout for **FollowMeTV** feature.

Tap the play icon to start streaming of the content from the TV to your mobile device. Available if your device is in your routers operation range.

#### Mirror Mode

This mode of FollowMe TV feature is enabled by default and allows streaming the content from any other selected TV sources and Media Browser.

#### Notes:

**Note:** Not all digital (DVB-T/C/S) SD and HD channels are supported.

**MultiLanguage audio support and subtitle on/off features are not functional.**

**The streaming performance may change depending on the quality of your connection.**

#### Media Share Page

To access the **Media Share** widget tap on the **Up-arrow** on the bottom left side of the screen.

If the **Media Share** widget is pressed, a screen is displayed where you can select the media file type to share with your TV.

**Note:** Not all image file formats are supported. This function will not work if Audio Video Sharing feature is not supported.

#### Smart Remote Feature

You can use your mobile device as a remote control for your TV. If you have selected the **TV** to use smart remotes full features tap on the **Up-arrow** on the bottom left side of this screen.

#### Voice Recognition

You can tap on the **Microphone** widget and manage your application, giving voice commands such as "Volume Up/Down", "Programme Up/Down".

**Note:** This feature is only for android based devices available.

#### Keyboard Page

The keyboard page can be opened in two ways; by pressing the **Keypad** widget on the application screen or automatically by receiving a command from the TV.

#### Requirements

1. Smart TV
2. Network connection
3. Mobile device based on Android or iOS platform (Android OS 4.0 or higher; iOS 6 or higher version)
4. Smart Centre app. (to be found on online application stores based on Android and iOS platforms)
5. Router/modem
6. USB storage device in FAT32 format (required for USB Recording feature, if available)

**Notes:** For Android devices, Normal(mdp), Large(hdpi) and Extra Large(xhdpi) screen sizes are supported. Devices with 3" or smaller screen sizes are not supported.

For iOS devices, all screen sizes are supported. User interface of the Smart Centre application is subject to change according to reason related to your device.

#### Alexa Ready

Alexa is Amazon's cloud-based voice service available on many voice controlled assistant devices. Your TV is compatible with and ready to be utilized with Alexa devices.

#### Works With Alexa

By means of the Works With Alexa feature you can control the functions of your TV with Alexa devices. In order to do this, the setup process should be completed. The setup can be carried out by using the **Works With Alexa** option in the **Settings-System** menu.

#### Setup process

The wizard will guide you through the setup process.

- On the first screen you will be informed about the feature. Highlight **Start** and press **OK** to proceed.
- An authentication code will be created and displayed on the screen. Use your computer or any other device with internet access to go to the internet address (URL) shown on the screen. You will be directed to a page where you can sign in to your Amazon account first. If you are not already signed in. Then you will be directed to a page where you can enter the authentication code you see on the TV and link your TV to your Amazon account.
- If the linking process was successful you will be asked to determine a name for your TV, called 'Friendly Name (FN)'. A 'Friendly Name' is a name that reminds you of your TV, such as 'Living Room TV', 'Kitchen TV', 'Dining Room TV', etc. Choose an easy-to-remember name. You will say this name to Alexa which TV to control. When you are done, highlight **OK** and press **OK**.

- Examples about the use of the feature will be displayed on the next screen. Press **OK** to finish the setup.

Once the setup is complete, you will be able to control the functions of your TV with Alexa.

**Note:** Make sure that the devices are connected to the internet.

#### Example Commands

Here are some voice commands that you can use:

| Command            | Function               |
|--------------------|------------------------|
| Alexa, turn on FN  | Powers on the TV       |
| Alexa, turn off FN | Powers off the TV      |
| Alexa, play FN     | Starts media playback  |
| Alexa, pause FN    | Pauses media playback  |
| Alexa, resume FN   | Resumes media playback |
| Alexa, stop FN     | Stops media playback   |

### Important Instructions

For your own safety read the following instructions carefully before attempting to connect this unit to the mains supply.

#### MAINS (AC) OPERATION

The wires in the mains lead are coloured in accordance with the following code :

#### IMPORTANT

As the colour of the wires in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows:

The wire which is coloured green and yellow must be connected to the terminal which is marked with the letter E, or by the earth symbol, or coloured green or green and yellow;

The wire which is coloured blue or black must be connected to the terminal which is marked with the letter N or coloured Black.

The wire which is coloured brown or red must be connected to the terminal which is marked with the letter L or coloured Red.

For continued protection against risk of fire, replace only with same type and rating of fuse (ASTA approved 5A 250VAC fuse).

#### CAUTION

TO PREVENT ELECTRIC SHOCK DISCONNECT FROM THE MAINS BEFORE REMOVING COVER. NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

#### SAFETY PRECAUTION

THIS EQUIPMENT MUST BE DISCONNECTED FROM THE MAINS WHEN NOT IN USE. DO NOT ALLOW THIS UNIT TO BE EXPOSED TO RAIN OR MOISTURE.

### DVB Functionality Information

This DVB receiver is only suitable for use in the country which it was designed to be used in.

Although this DVB receiver conforms to the latest DVB specifications at the time of manufacture, we cannot guarantee compatibility with future DVB transmissions due to changes that may be implemented in broadcast signals and technologies.

Some digital television functions may not be available in all countries.

We continually strive to improve our products; therefore, specifications may change without prior notice.

For advice on where to purchase accessories, please contact the store where you purchased your equipment.

| Command   | Function   |
|---|--|
| Alexa, fast forward on FN                       | Advances media in fast forward mode  |
| Alexa, rewind on FN                             | Reverts media  |
| Alexa, set the volume of FN to 50               | Sets the volume to the specified level                                       |
| Alexa, turn the volume up on FN                 | Increases volume by 10 units   |
| Alexa, turn the volume down on FN               | Decreases volume by 10 units   |
| Alexa, mute FN                                  | Mutes sound  |
| Alexa, unmute FN                                | Unmutes sound  |
| Alexa, change the input to 'input_name' on FN   | The TV switches to the input source with the specified name (e.g., HDMI 1)   |
| Alexa, change channel to 'channel_number' on FN | The TV switches to the channel with the specified number (e.g., channel 200) |
| Alexa, change channel to 'channel_name' on FN   | The TV switches to the channel with the specified name                       |
| Alexa, channel up on FN                         | The TV switches to the next higher channel, if any available                 |
| Alexa, channel down on FN                       | The TV switches to the next lower channel, if any available                  |
| Alexa, next channel on FN                       | The TV switches to the next channel on the channel list                      |

FN is the abbreviation for 'Friendly Name'.

| VESA WALL MOUNT MEASUREMENTS |     |
|------------------------------|-----|
| Hole Pattern                 | H   |
| Sizes (mm)                   | 200 |
